# Perform 8<sup>™</sup> Lateral Ankle Stabilizer

## Neoprene sock

- provides compression for increased blood flow
- gives support to soft tissue
- fits comfortably

## Non-elastic rigid strap

- wraps in a figure 8 configuration to provide ankle support
- provides non-restrictive comfort zone over extensor tendons in anterior area of ankle
- · adjusts easily for maximum dorsiflexion of the foot

## Pads parallel to the Achilles tendon

- prevent posterior pressure on the Achilles tendon
- redistribute strap pressure
- protect Achilles tendon

# Hook fasteners with touch down pad

- assure continuous adhesion to the sock
- lock strap at terminal end
- make adjustment of strap quick and easy

- Of all ankle injuries, 85% are sprains and 85% of all sprains involve lateral ligaments.
- One result of these sprains is the chronic disability that occurs.
- Statistically, up to 44% of patients may have persis tent symptoms one year following the injury.

| ORDER# | SIZE    | MEN   | WOMEN |
|--------|---------|-------|-------|
| 50051  | Small   | 5-7   | 6-8   |
| 50052  | Medium  | 7-9   | 8-10  |
| 50053  | Large   | 9-11  | 10-12 |
| 50054  | X-Large | 11-13 | 12-15 |
